Molle panel
Jeep Wrangler JLU
SKU: EGJWJLU2MP
EGJWJLUMP

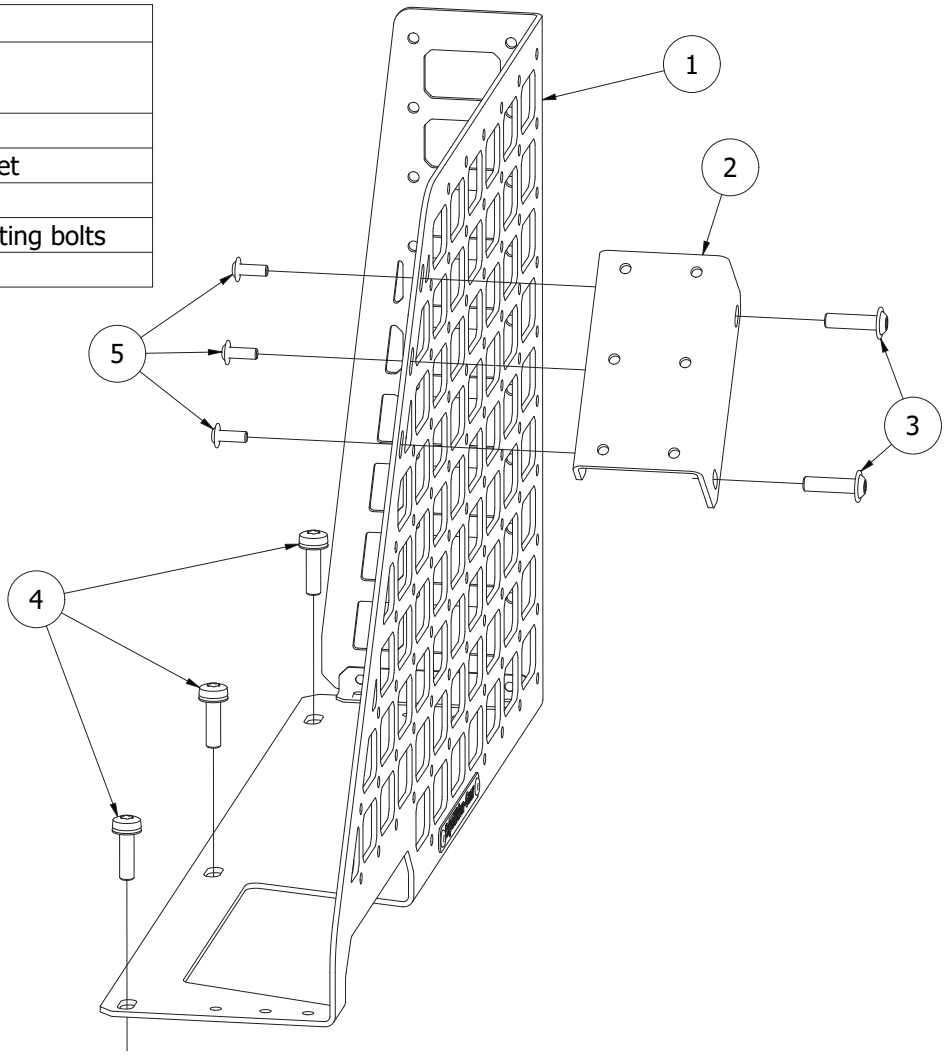

WARNING

1. Before starting the installation, make sure that the package contains all components and that you have the necessary tools.
2. Expedition-Gear is not responsible for any vehicle damage resulting from improper installation or installation errors.
3. Improper installation of the product may result in bodily injury, death, or a vehicle accident. The user is responsible for verifying that the installation is correct before use and for periodically checking the technical condition of the product. Remember! You are responsible for the installation of products in your vehicle, as well as for their regular inspection for wear, proper adjustment, and safety.

STEPS

1. Remove the plastic plug from the vehicle frame.
2. Install the mounting bracket using M8 bolts (item 3 in the diagram). Ensure the bolts and bracket are properly aligned before tightening.
3. Remove the factory-installed roof mounting bolts (item 4 in the diagram). Retain these bolts for reuse.
4. Carefully position the molle panel onto the mounting points.
5. Secure the molle panel using bolts (Item 4 and Item 5), following the diagram. Tighten all fasteners to the recommended torque specifications.

PARTS LIST	
PART NUMBER	PART
1	Left panel
2	Left mounting bracket
3	Bolt - M8x30
4	OEM hard-top mounting bolts
5	Bolt - M6x16
